

Ramshackle Tenements That the Mayor's Committee Offers Hub Families

"There are plenty of houses to let," says the profiteering landlord to the tenants he orders to vacate to he can raise the rents in incoming tacks. "The trouble with the people these days is they expect too much for their money. Why, only the other day the Mayor's Rent and Housing Committee reported 800 vacant tenements." So an American reporter and photographer, armed with a list of vacant tenements furnished by the Mayor's Rent and Housing Committee, went out to look for a home to rent. Here's what they found. Note the homelike conditions of the vacant tenements. On left, the "cozy corner" in a bedroom of a Charlestown house; centre, woman in bedroom of a Charlestown house; right, the kitchen of another Charlestown house on the Housing Committee's list.

Doubles Taxes of Rent Profiteers

Summoned before the council, Shevitz refused to reduce his rents. The council ordered the assessors to re-survey the property, with the result that they doubled its valuation.

Mrs. Avery said she was not a socialist, but she was an expert on Socialism. She testified that she had read Wilson's book and that she had found it to be a very interesting and informative work.

LYNCHERS TRY TO GET NEGRO

Black Boy Who Killed White Girl Is Saved by Police of Indianapolis

Indianapolis, April 23.—After a night, during which a mob of more than 3,000 persons attempted to storm the Marion County Jail to get William Ray, sixteen years old, one-faced negro slayer of fourteen-year-old Martha Huff, a white Indianapolis girl, was quiet today.

Crowds of thousands and thousands of persons thronged about the streets near the jail, with scores of men upon the roof, heavily armed with guns, but no one was allowed to enter the jail.

The demonstration followed the confession of Ray that he had killed the white child into a field and attacked her and then ended her life by stabbing.

Holy Cross Professor Attacks 'Spiritism'

Springfield, April 23.—Rev. C. S. de Heredia, S. J., of Holy Cross College, before a large audience here, demonstrated "spiritism" with table-tipping, levitation and apports.

Only his regard for the "respectable professional magician," he explained, restrained him from revealing how the things were done.

The motive for the "expose" the priest stated, was to expose the frauds perpetrated on the public under the guise of communication with "departed souls."

"We Christians," he said, "have faith in immortality; in life after death. We believe that we will see our relatives again, but for the sake of decency and order we do not want to call our mothers back to the 'intimacy table.'"

Filene's VALUE vs. overalls

AMERICA is a nation of joiners. In the typical American family father has his clubs, mother has her clubs, sons and daughters their frats and societies, as many group photographs in the typical American home will testify.

We note with interest and a good deal of sympathy the "Overall Clubs" springing up all over the nation in an effort to bring down the "high cost of living."

But why not form VALUE Clubs? Isn't value the thing, to consider? You will increase the cost of living by wearing overalls if already your wardrobe is filled to overflowing. Filene VALUE applies equally to overalls and millinery. Filene VALUE is competitive—it has always been our policy not to be undersold. Filene's was built on VALUE, is still growing on value! Your prosperity also cannot fail to grow if you put the emphasis on VALUE.

ARREST 3 AS LIQUOR THIEVES

Shots Fired as Roxbury Police Chase Three Accused of Robbing Store

After a chase in which a number of shots were fired, the police of the Roxbury Crossing station today arrested three men charged with breaking and entering the liquor store of James H. Doyle, No. 1127 Columbus avenue, and the larceny of thirty gallons of whiskey, with other articles.

'OUTLAWS' TO FORM UNION

Expect New Alliance, Opposing Brotherhoods, Have 75,000 Members

By International News Service
Washington, April 23.—An alliance of all the "outlaw" railroad unions will be effected under a working agreement, according to R. J. Mitchell of the United Engineers' Association of Chicago.

Representatives of the New York and New Jersey strikers announced today they would join the alliance and work independently of the brotherhoods.

The new alliance, it was stated, will have a membership of 75,000 railroad workers representing all crafts. As soon as the railroad labor is handed down a decision on the wage demands a national convention will be called of the delegates in the United States and Canada from the organizations representing unionists from the old line union.

"It is not to be a new big union," said J. P. Foley of the Cleveland Yardmen's Association. "We're not fools. We're law abiding citizens who are tired of supporting high paid officials

who keep the members under tyrannical rules."

Chicago, April 23.—Negotiations for the calling off the switchmen's strike in the Chicago district, were "on again" today, when John Grunau, chief of the strikers, who left the conference with Federal officials in anger Thursday, announced that he would appeal to the strikers to return to work at a meeting to be held late today.

"We're ticked," said Grunau. "We cannot fight the government."

Railroad officials regarded this statement as sounding the knell of the strike movement throughout the country.

3 BOY MARINERS RETURN HOME

East Boston Youths Land at Jeffries Point After Night on Governor's Island

Following a harrowing night spent on the shores of Governor's Island, watching a strong tide rush out and in, three East Boston lads who were sent to an improvised boat yesterday, returned safely home today. Bave for the first time they suffered comparatively little.

The boys were saved from shipwreck by one of their number, who, embarking in the Holland led him through the hole in the dike with his finger hooked a post born in the narrow bottom of the boat by sitting on it. While the tide rushed about him he manfully held his position until shore was reached.

The boys James Stone, Jr., aged fourteen, of No. 103 Chelsea street; Albert O'Grady, aged fourteen, of No. 123 Chelsea street; and Michael Maratano, aged fifteen, of No. 123 Chelsea street, made their voyage in a

Predicts Harm if Tax Is Put on Bachelors

By International News Service.
Paris, April 23.—A tax upon bachelors and unmarried women will have an immoral and detrimental effect upon any country that puts it into effect, in the opinion of Professor Haymen, a member of the French Academy of Medicine.

Commenting today upon the proposal of France to put a 10 per cent tax upon unmarried men and women, Professor Haymen said: "From a financial standpoint the tax may be a good thing, but it is another view, supporters of the proposal say that it will increase marriage and thus decrease the number of illegitimate births. But many persons afflicted with tuberculosis, epilepsy and other diseases may enter the marriage state to avoid the tax. In this event these dreadful diseases would be spread."

"If there are men and women who are entirely wrong in relating to found families, there are others, and there are countless numbers of them, who would be making by marriage. It is the duty of every physician to oppose this tax on that ground alone."

"That is not all. If France imposes such a tax on that ground alone, thousands of persons entering into the marriage contract will be thought of as 'seducers'. We shall have divorcees, remarriages without number. The newspapers will be filled with cases of infidelity because infidelity will be so common that no one will regard it as wrong."

BONUS TAX NOW UNCERTAIN

Question of How to Raise Money for ex-Servicemen Becomes Complicated

Washington, April 23.—With forced abandonment of the plan of a gross sales tax to raise the bulk of the money needed to pay a cash bonus to ex-servicemen, the program of the House Republican leaders for bonus legislation was broken, and today the whole matter is one of confusion and uncertainty.

Advocates of a tax on war profits instead of on consumption, are dominating the situation, but they have not been able to draft a compromise bonus bill that will command the support of a majority of the Republican members.

Republican members of the Ways and Means Committee are at work over a re-draft of their bill, and additional members will be gathered from the Treasury Department as to the estimated revenue that can be had from readjustments of the income taxes on incomes in excess of \$10,000 and on corporations net income.

Stricter partisan politics have helped to complicate the situation to the detriment of the bonus legislation. Republican leaders are condemning members of their own party. Democratic members are viewing the situation of the bonus legislation with conflicting emotion.

Southern members are opposed to the bill because it would cut down on diseases among the colored

workers, but they must support the bill temporarily by their attendance with the bonus should it be brought to a test for political reasons.

Secretly glad it has been halted will defeat their purpose.

Cocoon Oil Makes A Splendid Shampoo

If you want to keep your hair in good condition, be sure what you wash it with.

Most soaps and prepared shampoos contain too much alkali. This dries the scalp, makes the hair brittle, and is very harmful. Malted cocoon oil shampoo (which is pure and entirely harmless) is much better than anything else you can use for shampooing. It will not possibly irritate the hair.

Simply rub your hair with water and rub it in. Use one or two teaspoons will make an abundance of rich, creamy lather, and cleanses the hair and scalp thoroughly. The lather rinses out easily and removes every particle of dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves it fine and silky, bright, fluffy and easy to manage.

You can get Malted cocoon oil shampoo at most any drug store. It is very cheap, and a few ounces is enough to last everyone in the family for months—Advertisement.

TELLS ABOUT A CHRONIC TROUBLE

Mr. John Whipple, 639 N. 15th St., Philadelphia, writes: "I had been troubled for years with chronic constipation, until my whole system seemed poisoned, and I suffered with headache, languor, depression and general impaired health. I began taking Sulphur Tablets and got immediate relief. I am, after many months, still regular in habit, and thank you and hope they will prove known to thousands, etc."

"Sulphur Tablets" is awarded to Rufus E. Whipple of Boston, secretary of the organization for "constipation and organization of the stomach and bowels."

If your blood is bad, tongue coated and you are constipated, with stomach and bowel irregularity, get a tube of Sulphur Tablets of your druggist right away. They are made of sulphur, cream of tartar and herbs—so don't accept ordinary "sulphur" tablets.

Reliability

Our Ideal of Service

This store's ideal of Service to its patrons is embodied in the word "reliability."

This reliability in regard to merchandise, upon which we have insisted from the beginning, is reflected in all our dealings with our patrons so forcibly that long ago we gained a reputation for absolute fairness to the customer. The oft-heard expression, "You can DEPEND on Jordan's," is gratifying evidence that our constant striving to fulfill our ideal does not lack public appreciation.

All our patrons, both new and old, may buy here in perfect confidence that they will not be offered merchandise that, while superficially attractive, is deficient in the substantial, value-giving "quality," which is our watchword.

When You've Looked the Whole Field Over Our Greater Value-Giving Stands Out as Plainly as Black and White

A Saving of 10% to 20% on a dollar article amounts to only ten to twenty cents---scarcely enough to induce some people to cross the street. But a 10% to 20% saving on a \$60 suit of clothes runs into enough money to interest most any man. When we tell you that there's a 10% to 20% advantage to you in buying your clothes at this Live Store, we're merely stating a fact that you can easily prove to your own satisfaction.

Anyone can see, when the circumstances are known, how this greater value-giving of ours is brought about. With our enormously greater volume of business, our cash policy in both buying and selling and more economical management, we can and do sell better clothes for less money than any other store—anywhere.

With prices at their present level, our greater value-giving is more conspicuous and more appreciated than ever before. Men are more and more adopting the feminine custom of "shopping around" and comparing qualities and prices. That's a good thing for them and a good thing for us. We thrive on comparisons.

Lookaroundsomeyourself. If you're already a Kennedy customer, you'll have a better appreciation of what this Live Store is doing for you. If you're not, a visit here will reveal to you countless money-saving, quality-getting opportunities which are yours to take advantage of at any time you choose.

Does 3¢ = Americanism?

Did you know that 3c is MORE than the churches average from each member per day?

WE AMERICANS may be thoughtless. Sometimes we may appear selfish. But when a great need arises, no one can say that we have ever shirked.

Ask any son of France. Ask any soldier of Great Britain. Or ask any Armenian mother or a girl with a red cross on her sleeve or one with a tambourine in her hand.

And now the churches come to us for help—our churches. Not begging. Not asking alms. But with heads lifted high facing a task so worthy that we, as loyal Americans, ought to feel it a privilege to help.

Here is the Plain, Unvarnished Truth

We don't need to be told that the church is the heart of the Nation. We admit its influence for lasting good in our children. We see its stabilizing influence on our communities. We know a little of its great hospitals, its homes for children, its schools and colleges here and abroad.

But most of us do not realize how pitifully inadequate the support of the churches is when compared to the urgent needs.

Less than 3¢ a day!

In spite of the great tasks which we expect our churches to carry out, those of us who give to the church—and the number is all too few—are now giving an average of less than 3¢ a day for all church purposes.

Less than 3¢ a day. Shall our churches go on? It is for you to say. Without your help the work of your church must be just that much less.

Give—and give from your heart as well as from your pocketbook.

A World Survey Was Made

Our churches know the needs that must be met. They know exactly how every dollar—every penny—will be used for the greatest good without waste.

A world survey was made by the churches that surrounds business men in its thoroughness. County after county was studied; the communities of the world were visited and reported in minute detail.

How the Interchurch World Movement Originated

Our churches said: "The task of meeting the urgent needs shown by the world survey is too great for us to do individually as denominations. We must do this work together."

So thirty great denominations are cooperating—each keeping its own purpose and identity—but all working together under the name of the Interchurch World Movement.

Because of this cooperation, it is estimated that over one million dollars will be saved alone in eliminating waste and duplication.

HEARN MOST LIKELY TO HURL WHEN TEAMS PLAY

By NICK FLATLEY.

Any time the sun decides to shine for an hour or so and absorb the moisture on Braves field, the season will open there officially for 1920. Manager Stallings and his athletes were waiting for that condition to-day, as they have grown a bit weary watching rain clouds and puddles while this month has been the longest in the history of the city.

It is now, however, that the Braves are ready to begin their season. The team has been in the city for some time, and the players are in good shape. The manager, Stallings, is a man of great experience, and he is sure to lead his team to success. The Braves are a team of great players, and they are sure to give the fans a good show.

May Use County Jail as Hotel for Race Track Patrons
Louisville, April 21. Unless unforeseen legal complications arise the Jefferson County Jail will be turned into a temporary hotel for the accommodation of the Derby visitors, and Jailer John Barr may keep it open for this purpose through the Spring racing season. At the present time the jail has fewer prisoners in it than ever in its history, and Jailer Barr says he can convert a couple of floors into sleeping quarters for several hundred persons with little trouble. He plans to charge guests only \$1 a day, which he says will just about cover the expense of keeping them. Barr is conferring with his attorneys in an effort to determine if there is any legal hindrance to this proposition.

This Day in History—April 23, 1920.
THIS is the anniversary of the birth, in 1561, of the world's greatest dramatist, William Shakespeare. His plays, familiar to every lover of literature, the world over, remain as wonderful monuments of the master poet's mind of his age.

THE YOUNG DIANA

Story of Tense Mystery in Which Heroine Holds Key to Youth

By Marie Corelli

AT midday the sun, which had been shining all day, was now shining down on the earth, and the world was in a state of great excitement. The sun was shining down on the earth, and the world was in a state of great excitement. The sun was shining down on the earth, and the world was in a state of great excitement.

Suppose that he should be a perfectly perfect man, a man who had no faults, a man who was perfect in every way. Suppose that he should be a perfectly perfect man, a man who had no faults, a man who was perfect in every way.

Somewhat Fevish

"What a life you are doing to yourself," said the girl, looking at the man who was sitting in the garden. "You are doing to yourself a life of youth and beauty, and you are doing to yourself a life of youth and beauty."

New Outlook

Stimulated by the thought of the new outlook, the girl was now in a state of great excitement. She was now in a state of great excitement, and she was now in a state of great excitement.

With all his learning, the girl was now in a state of great excitement. She was now in a state of great excitement, and she was now in a state of great excitement.

Recalling her to her duties, she put all her papers and books in the library, and she was now in a state of great excitement. She was now in a state of great excitement, and she was now in a state of great excitement.

As a Woman Thinketh

By HELEN ROWLAND

Copyright, 1920, by The Wheeler Syndicate, Inc.

EVERY woman would like to know—

Why every man has to have a blonde in his life?

Why a man's theories regarding "woman" and his tastes in "women" are so different?

Why a man always craves and trills it his hair?

Why a man loves himself better in a red necktie than in any other kind?

Why a woman has to go through a sevenfold different kind of torture in order to attain that nice, clean, kissable effect that a man has after a shave?

How a man can tell a woman all about science, engineering, dynamo, perpetual motion and the motor car, and yet not make a single mistake?

How a man can get into a temperamental "blow" when it gets temperamental?

How a man can know so much about politics as he says he does and then let them put prohibition over him?

Why all the husbands in the comic strips are so "abused"?

Why a man, who falls in love with a girl's pretty foot and ankle, is always shocked to discover that she has a brain at the other end?

Why a man will risk his brain to make small talk with a woman, when all he needs to do is keep on saying "How pretty you look! How pretty you look! How pretty you look!"

Why there is no little difference between the savage and the civilized man—before breakfast?

Why a man always begins to find fault with the domestic regime the moment you succeed in getting a servant in the house?

Why Darwin said men sprang from monkeys, when they appear merely to have crept away?

Why a man always beams as proudly when you enunciate his aims as though you had presented him with a knighthood or a Carnegie medal?

How a man can tell the front from the back of his hat?

Why a man always listens to his wife's conversation with that "I-am-ready-to-beat-with-my" expression?

Why a man's idea of "housecleaning" consists in running a straw through the fat and blowing the dust out?

Why Solomon was the only man who ever appreciated "woman's infinite variety"?

Palmer's Silly Nonsense on Bolsheviki Fools Nobody

Palmer's declaration that the railroad strike was caused by Russian Soviet intrigue is simply silly.

The railroad workers' strike was chiefly due to the political intrigue and economic ignorance of the Democratic Administration. The Russian Bolsheviki had no more to do with the strike than the man in the moon.

Neither did the Russian commercial representative, Mr. Martens, have any more to do with the strike than did the same man in the moon.

Palmer is simply beating the "Bolshevik" tom-tom to distract attention from his own part in the bad business—just as 100 per cent. American profiteers during the war used to beat the "pro-German" tom-tom to distract attention from their knavery.

Look at the facts.

Eight months ago Palmer employed all the publicity channels to promise reductions in the cost of food and other necessities.

He is—and was—economically ignorant that he thought he could bring down prices caused by inflation, shortage of production and excessive exportation and criminal governmental extravagance by methods absolutely childish in conception and in scope.

As the American then said, every well-informed and thinking man knew in advance that Palmer could not and would not reduce the cost of living with the silly measures he proposed.

But Mr. Wilson apparently knows no more of the fundamental laws of economic cause and effect than does Palmer. So he adopted Palmer's views, sponsored Palmer's absurd remedial measures, and promised the people lower living costs.

At that time the railroad workers were demanding an increase of wages, and Mr. Wilson, publicly and in writing, urged the men to postpone their demands for six months, at the end of which time either Mr. Palmer would have reduced the cost of living, so that their wages would be sufficient, or, in case of Palmer's failure to reduce the cost of living, THE GOVERNMENT WOULD GRANT THE WAGE INCREASE.

Let's be fair to both sides in this railroad disagreement. Let's tell the truth about the men, whether we think their actions advisable or not.

The men waited, as they were asked to do.

Palmer not only failed to reduce the cost of necessities, but his political tricks actually increased the price of our prime necessity—sugar—to a prohibitive figure for most poor folks.

The six months passed, and Mr. Wilson not only failed to raise the men's pay, as they were promised, but he made haste to turn the railroads back to private ownership, so that the Government could shirk its pledges and the private owners could tell the men that they were not responsible for Government promises.

Under these circumstances the men felt that they had been tricked and cheated.

And so they struck, not in unison, but here and there, in groups of different sizes. It was a foolish strike and was bound to fail. But the Bolsheviki had nothing more to do with it than the man in the moon—as we have said.

There would have been no discontent, no bitterness, no strike, if the Administration had kept its word with the workers, and if the Administration had not reversed its earlier policies by signing the infamous Zach-Cummins railroad bill, and going over to the reactionaries.

The Attorney-General sees a "red" on every hand, but cannot find a profiteer to prosecute and convict anywhere. The trembling patriots in the Department of Justice are not dealing with facts. They are raising a hobgoblin for political effect.

The attempt to shift the blame for the high cost of living—including sugar—to the shoulders of Lenin and Trotsky will only make sensible Americans laugh.

The American people know who is to blame for the high cost of living and for the strike, too.

And they know that the men to blame are in Washington and not in Moscow.

Adequate Pay for Ministers Duty Owed to the Future

Eight ministers of religion in every ten, throughout the United States, still receive less than twenty dollars a week.

Nearly eighty per cent. of our clergymen have received no increase of income whatever since prices began to rise five years ago. In effect, their pay has been cut in half.

Right now the average salary of all ministers is less than the Government's official estimate of what is required to maintain an average family upon a safe American standard of living.

The per capita pay of mechanics organized into trade unions is double that of ministers, who must dress to a high standard and keep up with the advance of thought.

Mechanics are not overpaid. Ministers are shamefully underpaid.

Take from any community the wholesome influences guided by the ministry and few would care to live in that community.

But many who share the benefits of this great moral service are not now contributing to its support. They reap what others sow.

This is bad for the moral machinery of American life and also bad for the personal morals of the evaders. It portends, unless corrected, the certain deterioration of American life, for without moral leadership, without high inspiration, nations perish.

Citizens, the time has come to correct this combined injustice and peril.

Under our plan of government it cannot be corrected, as in the case of teachers, by legislation. It becomes, therefore, a duty and a debt of honor.

There surely is enough sound character in our country to safeguard the character of the future.
